

# RÉSUMÉ **MICHAL** **ZELINKA**

PROGRAMMER // WEB DEVELOPER/DESIGNER  
PROJECT MANAGER // IT ENTHUSIAST

## EDUCATION

**MENDEL UNIVERSITY**  
**ECONOMIC INFORMATICS**  
**BACHELOR DEGREE IN 2010**  
**MASTER DEGREE ONGOING**

PROGRAMMING, NETWORKING, INFORMATION  
AND DATABASE SYSTEMS, ECONOMICS,  
MARKETING, MANAGEMENT

## PRACTICE EXPERIENCES

**Digital Service s.r.o.**  
7 MONTHS TOTAL DURING 2004—2007

**it2b s.r.o.**  
MAY—DECEMBER 2010  
IT CONSULTING  
NETWORK MANAGEMENT  
CORPORATE SERVER MANAGEMENT  
SOFTWARE MANAGEMENT  
WEB SERVICES ADMINISTRATION  
WEB DEVELOPMENT/DEPLOYMENT  
HARDWARE ASSEMBLY  
CUSTOMER SUPPORT

## Freelance activities

WEB DEVELOPMENT  
MIRANDA IM  
MAC & iOS

## BASIC INFO

BORN 1988  
CZECH REPUBLIC  
WWW.MISACEK.NET  
MISACEK@MISACEK.NET

## LANGUAGE SKILLS

**ENGLISH**  
ADVANCED

**FRENCH**  
BEGINNER

**GERMAN**  
ADVANCED BEGINNER

**CZECH**  
NATIVE

## SKILLS & CAPABILITIES

**PROGRAMMING**  
C/C++/ObjC, basics in  
Java, C#, Ruby

**ADMINISTRATION**  
Linux/UNIX, Mac, Windows

**WEB TECHNOLOGIES**  
HTML/CSS/JS, PHP, SQL,  
basics in Ruby, Perl, Python

**NETWORKING**  
Cisco, open-source techs

**PREFERENCES**  
Adobe products, Win/Mac/  
Linux development,  
scripting, virtualization,  
web deployment

**OTHER**  
flexibility, solicitude, team  
leader, communicative,  
B group driving licence

# MICHAL ZELINKA

## ADDITIONAL INFORMATION

### TIMELINE ↓

2010 — — — — —

#### — Mendel University

Acquired Bachelor Degree in Economic Informatics, continuing with Master Degree studies. Studying this merge of two major spheres of business allows me to get in contact with interesting topics like general business management and planning, marketing, project management, business economics, programming techniques and theories and some more.

My bachelor thesis analyzing Cisco and open-source voice technologies in small-to-medium business company and its convergated network has been oriented practically and technically, with appropriate economic aspects aimed on reducing costs as an advantage.

#### — it2b s.r.o.

As a long-running practice with this progressive young IT company, I came in touch with many aspects of every-day events. The company itself is concerned on providing IT services and support to other companies, mostly oriented to different business, thus allowed me to gain some experience in project process and low-level management, team work and communication, and later also to participate in project planning and management, customer support and relations, defining business processes, creating an IT deployment plan and much more.

2007 — — — — —

#### — Miranda IM project

Began with development of function-extending plugins for popular Miranda Instant Messenger (mainly aimed on UX, utilities and communication protocols).

#### — SSITSP Purkynova

Underwent school-leaving exam on IT-related study program Information and Database Systems. Starting with high school studies, programming became a very important concern, no matter what platform this covers. Interest in wide familiarization with a spread of technologies came as an effect.

2006 — — — — —

#### — Freelance activities

Began with independent activities mainly related to web development, programming on major platforms, desktop experience and usage. This later expanded to further interest in alternative operating systems, Linux and Mac, resulting in leaving Windows as a major OS and interest in most use-cases, but not left behind at all...

2004 — — — — —

#### — Digital Service s.r.o.

Got a practice at a local IT-oriented company. The practice itself took a couple of months between 2004—2007 and was related to many topics included in IT branch, for example hardware assembly, software management, web development and server administration. This also included meeting and negotiating with customers.

### INTERESTS ↓

#### — Project management/planning

I'm personally interested in discovering and defining solutions, looking for new ideas, brainstorming, implementing thoughts into practice, in both managing or operative level. I've got some basics in these disciplines and I would like to do my best to gain more practice and precision to become experienced specialist.

#### — Dedicated project to take care of

As a person interested in progressive start-ups and unseen new ideas, I would be pleased to stand behind some perspective kind of project providing a favourite public service or interest. More expressively, this would be something I could somehow live, breathe with and take care of. No matter whether this could be handled as a part of career performance or just a personal free-time activity.
